

**PIENAAR ENERGY (PTY) LTD**

# **Environmental Comparison of 200kWh IP55 Outdoor Cabinet for Emergency Command Use**

## Overview

---

In this article, we explain what an IP55 rating is, how protection against dust and water is achieved, and which design features allow an IP55 enclosure to withstand outdoor and industrial environments. We will also clarify when IP55 is sufficient — and in which cases you may need to consider a more and more projects of electrical switchboard and control panels involve an installation outdoor. So sing the right outdoor enclosure is a real stake for panel builders, installers and their cu the enclosure to be discreet. This means you can meet the needs of large-scale applications without limitations, such as powering communities or supporting commercial projects. Our 200KWh Outdoor. Nema Enclosures Manufacturing Corporation uses the IEC's standardized International (or Ingress) Protection Code system for measuring enclosures capabilities. The IP Code reflects the degree of protection as "IP" followed by two numbers; the first digit shows the extent to which enclosures are. New Estap designed enclosures are hard to provide maximum protection against environmental break in to thanks to a robust construction and quality impact, vandalism, EMC and extreme thermal conditions. material with concealed hinges. Special coating ensure Use this outdoor cabinet whenever maximum.
