

**PIENAAR ENERGY (PTY) LTD**

# **Estonian Communications Energy Storage Battery**

## Overview

---

The 100 MW/200 MWh battery energy storage project in Kiisa began operation on February 3 as scheduled – just two weeks after a testing fault at the facility caused the most significant disturbance to the regional power grid since Estonia's desynchronization from the Russian. The 100 MW/200 MWh battery energy storage project in Kiisa began operation on February 3 as scheduled – just two weeks after a testing fault at the facility caused the most significant disturbance to the regional power grid since Estonia's desynchronization from the Russian. The 100 MW/200 MWh battery energy storage project in Kiisa began operation on February 3 as scheduled – just two weeks after a testing fault at the facility caused the most significant disturbance to the regional power grid since Estonia's desynchronization from the Russian electricity system. The newly opened Kiisa batter park is continental Europe's largest. Developers say it will bring greater energy security in the wake of decoupling from the. Europe's largest battery park will protect cities from blackouts.
