Expansion Battery (Hack?) for DIY Solar Generator

I scrapped the idea of trying to charge it from another DIY solar generator, and instead went about re-configuring my DIY models to work independently or together.

I'd like to move away from Big Reactors, how are ExU Generators?

Hey guys, playing FTB IE normal mode, tired of always using Big reactors. I'd like

something that's truly passive, like some type of solar generation. So, I see that ExU has solar generators, but idk how ...

128 reasons why I want 64x ExU generators : r/feedthebeast

I think the counter argument to the 64x generators is that even though they produce the same energy with less lag, people will most likely just make giant arrays of them like this, making no ...

Optimizing ExU solar generators? : r/feedthebeast

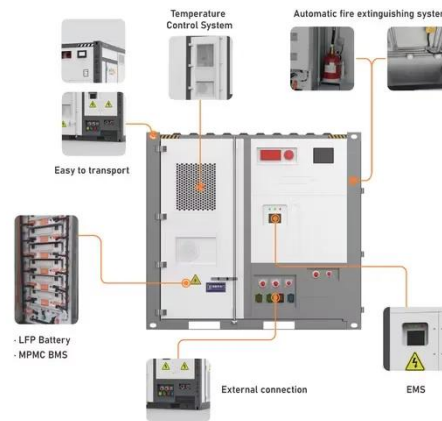

I just used 9 of my diamonds to make a solar generator, as i've been running on steam dynamos and it's just not cutting it. The solar's great, but it only drains power while there 's a redstone signal.
