

**PIENAAR ENERGY (PTY) LTD**

# **Fire station uses IP54 outdoor cabinet for fast charging**

## Overview

---

Safeprotex offers modular ev fire containment kits for charging stations and piles—featuring blankets, mats, and station boxes for rapid fire control. Oswell's charging stations achieve this through precision-engineered housings with multi-layer sealing systems, including silicone gaskets and. A fireproof battery charging cabinet is designed to address these risks by combining fire resistance, separation, monitoring capability, and controlled charging conditions. Designed for flexibility and fast deployment, it's ideal for telecom, remote infrastructure, and emergency applications. Join us as a distributor! Sell locally — Contact us today! 112kWh. According to Electric Autonomy Canada, a 33 percent growth in the number of EV charging stations was seen in the 12 months prior to March 2024. [v] However, most EV charging takes place at the EV.
