

PIENAAR ENERGY (PTY) LTD

Full-capacity lithium battery pack

Overview

These packs combine multiple lithium-ion cells in series/parallel configurations to achieve target voltages (12V-48V+) and capacities (30Ah-300Ah+). Key components include BMS for cell balancing and thermal management, with LiFePO4 chemistry often preferred for its safety and. Check each product page for other buying options. Packs are identified by. We carry a number of rechargeable lithium ion battery packs. 4 Ah battery used in many hoverboards, and a very compact replacement for e-bikes, etc. The most capacity you can pack, the pack uses the highest quality Japanese NCR18650GA 3500 mAh cells, 2s10p arrangement, with a 20 amp BMS with single port for charge and. A Lithium-Ion battery is a family of rechargeable battery types in which lithium ions move from the negative electrode to the positive electrode during discharge and back when charging. They're commonly found in today's electronics. Lithium Ion batteries and lithium battery packs provide the highest energy density of any battery.

Full-capacity lithium battery pack

Lithium Batteries - MaxAmps Lithium Batteries

MaxAmps lithium battery packs are assembled in the USA with factory fresh lithium battery cells. Our lithium battery packs work best in high performance applications including UAV, drones, and robotics.
