

PIENAAR ENERGY (PTY) LTD

Fully automatic solar container battery production equipment

Overview

Perfect for the mass production of lithium battery packs for electric vehicles (EVs), renewable energy storage, consumer electronics, and industrial applications. Suitable for manufacturers looking to upgrade to a fully automated, high-output production line. Summary □ AGV-Driven Battery Cluster Robotic Loading System is an intelligent automation solution designed for large-scale integration, efficient loading and safe transportation of energy storage systems. Through high-precision visual positioning, adaptive loading platform, AI loading algorithm and. MOBIPOWER containers are purpose-built for projects where energy demands go beyond what a trailer can deliver. These rugged, self-contained systems integrate large solar arrays, advanced battery storage, and high-capacity fuel cells — with optional diesel redundancy when regulatory or client. We are a professional manufacturer of integrated solar container systems. SolaraBox solar containers enable customers to achieve greater energy independence and reduce carbon emissions. we will be pleased to advise you. Automated production of lithium-ion, saltwater and solid-state batteries.

Fully automatic solar container battery production equipment

Renewable Solar Container Generators

Each solar-powered shipping container generator is transportable, securable, and can be fully customized to your specific needs, including hybrid and microgrid compatibility.
