Overview

The global solar energy storage market was valued at USD 93.5 billion in 2024, at a CAGR of 17. Government incentives for solar-plus-storage installations and net metering policies enhancing storage demand along with rising environmental concerns. Since 2024, gigawatt-hour projects have been commissioned or started construction in not only the US and China, but also Saudi Arabia, South Africa, Australia, Netherlands, Chile, Canada and the UK. BloombergNEF expects additions to grow 35% this year, setting a record for annual additions, at 94. Source: S&P Global Commodity Insights. Data compiled. The Energy Storage Market Report is Segmented by Technology (Batteries, Pumped-Storage Hydroelectricity, Thermal Energy Storage, Compressed Air Energy Storage, Liquid Air/Cryogenic Storage, Flywheel Energy Storage, and More), Connectivity (On-Grid and Off-Grid), Application (Grid-Scale Utility). The global energy storage systems market recorded a demand of 222. Growing demand for efficient and competitive energy resources is likely to propel market growth over the coming years.

Global solar Energy Storage Market

Energy Storage Market Size, Growth, Share & Industry Trends

Utility-scale front-of-meter projects controlled 70.63% of the 2025 energy storage market size, underpinned by renewable-integration mandates and capacity-market paybacks; yet EV ...
