Solar generators, also known as solar power stations, are an eco-friendly way to harness energy from the sun to run electric appliances and charge digital devices. Unlike gas and propane generators, they're safe to use indoors and virtually silent during operation. These powerful power packs offer huge battery capacity that can fuel large devices and even appliances in a pinch. Whether you are outfitting your home in case of an extended power outage or looking for a steady supply of off-grid power for your overlanding setup, it's never been a better time to purchase a solar generator. But sifting through all the available options on the market — power stations that are. Solar generators are portable power stations that combine batteries with one or more solar panels to provide electricity almost anywhere you need it.
