

**PIENAAR ENERGY (PTY) LTD**

# **Grenada electric vehicle charging infrastructure**

## Overview

---

While Grenada currently has a limited number of charging stations, the government and private sector are working to expand this network. We're building out a convenient, reliable, customer-centric network of electric vehicle chargers. Revisit policy decisions with respect to incentives for hybrids, EVs, and Solar PV. Act and a microgrid policy/ Regulation. To fully. Though historically reliant on internal combustion engine (ICE) vehicles, Grenada is gradually transitioning to electric vehicles (EVs) as part of its broader sustainability efforts. This blog explores the evolving EV landscape in Grenada, its benefits, government support, infrastructure. Local entrepreneurs are developing charging infrastructure, battery services and renewable energy solutions, generating skilled jobs and fostering innovation uniquely suited to island economies. Additionally, electric mobility addresses a critical health challenge.
