

PIENAAR ENERGY (PTY) LTD

Guyana rural household solar panels

Overview

SOME 37,000 household solar systems have been distributed to hinterland and other off-grid communities, providing reliable electricity to thousands of families and marking a major expansion of Guyana's renewable energy drive, Prime Minister, Brigadier (Ret'd) Mark Phillips has. SOME 37,000 household solar systems have been distributed to hinterland and other off-grid communities, providing reliable electricity to thousands of families and marking a major expansion of Guyana's renewable energy drive, Prime Minister, Brigadier (Ret'd) Mark Phillips has. The Government of Guyana has distributed more than 280 Solar Home Systems to rural communities as part of its ongoing efforts to expand access to reliable, renewable energy and improve the quality of life for residents in off-grid areas. This latest distribution is part of a broader national. A total of approximately 280 solar home energy systems have been distributed by the Government across Abary Creek, Mahaicony Creek, and Region Two. This off-grid solar PV initiative is aimed at expanding renewable energy access in hinterland and riverine communities that are not connected to the electricity grid. We help homes, businesses, and government projects reduce energy costs and achieve energy independence through high-quality solar panel systems and expert installation services. Why Choose SolarOne?
