

**PIENAAR ENERGY (PTY) LTD**

**High-efficiency off-grid solar-powered containers used in Russian ports**

## Overview

---

Unlike conventional diesel generators—notorious for noise, pollution, and high operating costs—containerized energy storage systems (ESS) offer a quiet, emission-free, and cost-efficient alternative. In response, MEOX Off-Grid Container Power Systems has emerged as a modular, rapidly deployable solution (4-hour setup) that integrates solar, storage, and diesel backup for reliable energy independence. Our hybrid systems leverage core technologies like DC-coupled architecture (system efficiency). MOBIPOWER containers are purpose-built for projects where energy demands go beyond what a trailer can deliver. A Higher Wire system includes solar panels, a lithium iron phosphate battery, an inverter—all housed within a durable, weather-resistant shell. For instance, specialized units like the LZY-MS1 Sliding Mobile.
