# High quality circuit breaker in substation Seller

CE UN38.3 

## Overview

---

We are an after market parts manufacturer & distributor for high voltage substation equipment including circuit breakers & transformers. List of equipment that we supported. We have more than 100,000 parts in stock. Available with current ratings ranging from 15 to 1,200 A. Ship. Bokong Electric is a leading manufacturer of CE certified circuit breakers for Substation s. Our products are designed to meet the highest standards of safety and efficiency, ensuring reliable performance in any power distribution system, Our circuit breakers are built with precision engineering. A substation breaker is a critical protective device in electrical power systems, designed to interrupt fault currents and protect equipment from damage due to overloads or short circuits. Circuit breakers perform two fundamental roles in substations: (1) interrupt high fault. Rebuilt breakers have become increasingly popular for the same reason that more and more utilities are buying remanufactured transformers: Lead times for new ones can be as high as 4 years.
