

**PIENAAR ENERGY (PTY) LTD**

# **Home energy storage box certification fee**

## Overview

---

Between the ESIP application and exam fees, NABCEP charges \$500 to sit for the ESIP exam. In the event you need to retake the exam, the re-exam fee is \$275. All NABCEP fees are listed here. The fees on this page pertain to candidates only, not Registered Training Providers. Note: Our testing vendor, Measure Learning, charges an additional \$75 international fee for exams. Residential energy storage systems need certifications like UL 9540, UL 9540A, UL 1973, UL 1741, NFPA 855, DNV, and NABCEP ESIP in 2025, along with an ESS certificate. Certification keeps homeowners and installers safe, ensuring the system operates safely and complies with legal requirements. Discover the essential certifications required for residential energy storage systems (ESS) and how ACE Battery exceeds industry standards to ensure safety, performance, and reliability. Learn more about our certified ESS solutions today. Certifications are the backbone of safety, performance, and reliability. What certifications are required for domestic energy storage?

To ensure the safe, efficient, and effective deployment of domestic energy storage solutions, a variety of certifications must be obtained.
