PIENAAR ENERGY (PTY) LTD

Home monitoring solar solar container power supply system

Overview

These turnkey solutions integrate solar panels, inverters, batteries, charge controllers, and monitoring systems into a single transportable unit that can be deployed rapidly to provide electricity in diverse locations. The world's first AI-optimized 5-in-One energy system combining inverter, battery, EMS, EV DC charging, and intelligent controls into a resilient, expandable solution built for energy independence. Expandable from 5 to 390 kWh with stackable battery packs. PointGuard Home is an advanced all-in-one. A solar power container is a self-contained, portable energy generation system housed within a standardized shipping container or custom enclosure. Each of those units—usually included in Mobile Solar Container platforms such as the LZY-MSC1 Sliding Mobile Solar Container. The HJ Mobile Solar Container comprises a wide range of portable containerized solar power systems with highly efficient folding solar modules, advanced lithium battery storage, and smart energy management. Upgrade your shipping container home or office with a solar power kit and make the transition to off the grid living effortless! This system is designed to easily connect all your essential appliances (air-conditioners, computers, lights, microwaves and more). It's equipped with a 3000 watt power.
