

**PIENAAR ENERGY (PTY) LTD**

# **Hothouse photovoltaic panel installation**

## Overview

---

This comprehensive guide walks you through every step of your solar project, from initial assessment to system commissioning. New York State is making solar energy more accessible to homes, businesses, and communities through NY-Sun incentives and a network of qualified installers. Combined with declining equipment costs, New York State tax credits, and Inflation Reduction Act tax credits for commercial solar, going solar. Before installing a solar hot-water or a solar electric-generating system, also known as photovoltaics, you must hire a Professional Engineer or Registered Architect to be sure your building's structural system can maintain the weight of the equipment. Permits are required for the installation of. Solar panel installation costs range from \$15,000 to \$30,000 for an average American home, with a payback period of 6 to 10 years depending on your state's incentives and sun exposure. Before choosing a new system, you should know what options work for your roof, the best ways to connect the. If you're comfortable with climbing on your roof and capable of wiring a household electrical socket (or willing to learn), then you have what it takes to install your own solar system.
