

## PIENAAR ENERGY (PTY) LTD

# How long does a solar photovoltaic panel last

**51.2V 150AH, 7.68KWH**

## Overview

---

Long story short, a solar panel's lifespan is about 25 to 30 years. Most are backed by 25- to 30-year performance warranties, and in real-world conditions, many keep producing power well beyond that. But lifespan isn't just about whether a panel still functions; it's about whether it's still delivering the return. Luckily, the lifespan of solar panels will allow you to produce energy for many years, providing a great return on investment.
