How much subsidy does a photovoltaic panel receive

Overview

The solar ITC, often called the federal solar tax credit, provides a 30% dollar-for-dollar reduction on eligible solar installation costs. We're here to help you navigate. The 30% federal solar tax credit, the single biggest financial incentive for homeowners installing solar, will officially end at the end of December. If you invest in renewable energy for your home such as solar, wind, geothermal, fuel cells or battery storage technology, you may qualify for an annual residential clean energy tax credit. We feature specific examples of each, along with additional resources and tips for maximizing. Installing solar panels is a big investment, but government incentives for solar panels can significantly reduce the cost.
