

PIENAAR ENERGY (PTY) LTD

How to install a small solar-powered storage container

Overview

This is a detailed walk-through of the planning and installation of our 3kW - 5kWH - 120V off-grid solar system that powers a rehabbed shipping container. In off-grid business use, a Solar PV Energy Storage box represents an autonomous power solution that has photovoltaic (PV) arrays, storage batteries, inverters, and controls. Its base is made up of a solid floor frame, and mounted on this frame is the photovoltaic array. It is a self-unloading mobile solar container designed in a way to maximize ease of operation.
