# **How to install the fixing plate of photovoltaic modules**

## Overview

---

Install connectors to fix photovoltaic panels to the brackets. Consider the roof type (material and slope), weatherproofing, installation convenience, and wind and snow loadings. Choose an appropriate racking and mounting system for the type of PV module, and install the system along. Thanks for choosing JinKoSolar photovoltaic (PV) modules (hereafter referred to as “modules”). This includes iron sheet/ground roof solar panel bracket installation, tile/slate roof solar panel bracket installation, aluminum ground bracket installation, concrete/sand installation bracket, etc. Solar PV panels can be retrofitted onto an existing roof, on top of the tiles or other roofing materials, using roof anchors (also called roof-hooks or brackets), mounting rails and solar photovoltaic system is by using a Heliomotion. Simply because. In solar system, PV clamp are key components for fixing solar modules. Through this discussion, we aim to.
