How to put together the photovoltaic bracket puzzle

Overview

How to play Photovoltaic System Structure Puzzle. Sort all 9 parts correctly to win the game. Which choice is right for you can depend greatly on your budget, environment, and where you want to mount the array. That's what [Kris Harbour] did with his over-engineered 8.4kW. Wooden Jigsaw Puzzle: This 1000 piece puzzle is precision cut from alder raw materials wood boards for durability. The finished puzzle size is about 30*20 inches (75x50cm), and the thickness is 0. Unique rounded edges are safer. That's exactly what installing solar panels feels like without proper photovoltaic bracket drawings. In this no-nonsense guide, we'll crack open the blueprint of creating professional-grade PV bracket designs that even your inner engineer will applaud.
