

**PIENAAR ENERGY (PTY) LTD**

# **How to scan the QR code of solar inverter**

## Overview

---

First open your mySolarEdge app and log in. Next scan the inverter QR code. This code can be found on the QR code sticker located on one of the sides of the inverter. If you are connecting to a previously used inverter, click "continue with the last scanned QR code" instead of rescanning the same code. Move the switch to the 'P' position The mySolarEdge app. The MySolarEdge app provides a user-friendly interface to monitor and control your SolarEdge inverter. See Install / Update Tesla One for instructions to install Tesla One if it has not already been installed on the commissioning device. Alternatively, you can select More >. Follow these instructions to get your Tesla solar inverter back online! Before You Start. You'll need the Tesla App downloaded and logged into your account Keep your new WiFi network name and password handy Note: you'll need to complete this process for every Tesla inverter in your system Watch.
