

PIENAAR ENERGY (PTY) LTD

Huawei Japan Hybrid Energy Storage Project

Overview

TOKYO -- Huawei Technologies will begin selling large-scale battery systems for renewable energy storage in Japan in March, Nikkei has learned, seeking to tap growing demand as the nation transitions away from fossil fuels. In 2022, Kuma Village in southern Kumamoto Prefecture, Japan, was severely damaged by torrential rain. Rebuilding homes after the disaster presented a significant challenge and posed the question: Should the village stick with traditional energy or go green with sustainable solutions?

Kuma Village. I-mobile's first grid-scale BESS facility will use Huawei hardware. (Image: i-mobile) I-mobile plans to commission its first grid-scale storage facility in July 2025, the company said on Ma. The 2MW/8MWh high-voltage asset will be located in Hiki District, Saitama Prefecture, in the. A country with 125 million people crammed into an island smaller than California, where 98% of businesses rely on digital infrastructure. Now add typhoon seasons, earthquake risks, and the world's third-highest electricity costs.
