

PIENAAR ENERGY (PTY) LTD

Hydropower wind power photovoltaic power generation stocks

Overview

This guide breaks down the best renewable energy stocks to watch and invest in now, offering simple insights to help you get started -- no matter what. The global economy is rapidly transitioning to new energy sources. Green energy stocks got a lift thanks to the clean energy incentives in the Inflation Reduction Act of 2022 (IRA), along with the dual catalysts of rising. According to the International Energy Agency's ("IEA") Global Energy Review report, published in March 2025, global electricity generation grew over 1,200 terawatt-hours (TWh) in 2024, with clean energy accounting for 80% of this growth. This trend, reflecting the clean energy's prowess in driving. With that in mind, let's look at the best wind power and solar stocks to buy amid the anticipated spike in power demand amid the AI boom. The sector includes solar panel manufacturers, wind turbine makers, utility-scale renewable operators, and energy storage providers.

Hydropower wind power photovoltaic power generation stocks

BASIC APPLICATION

Storage systems have been proven to be "extremely lucrative" for commercial and industrial (C&I) fields.
