

PIENAAR ENERGY (PTY) LTD

India builds solar power station

Overview

Ahmedabad, 14 February 2024: Adani Green Energy Limited (AGEL), India's largest renewable energy (RE) company and the second largest solar PV developer in the world, has operationalized 551 MW solar capacity in Khavda, Gujarat, by supplying power to the national grid. India made 1,08,494 GWh of solar power, more than Japan's 96,459 GWh, and became the world's third-biggest solar energy producer. India's solar module manufacturing capacity jumped from 38 GW to 74 GW during FY 2024-25. Introduction Just a decade ago, India's solar landscape was in its infancy. Solar Power* (Cumulative) : 135. 81 GW ^Large Hydro includes 7175. 6 MW Pumped Storage # Excluding Nuclear Capacity of 100 MW, which is under outage for very long time, and have been removed temporarily w. 2025 For more details, Click below . The minister highlighted how decentralised solar energy is transforming lives across the country — bringing light to rural homes, powering local health centres, and providing new tools for farmers. This aerial photograph taken on Octoshows solar panels installed at the Adani Green Renewable Energy Plant in Khavda, Gujarat. AGEL achieved this milestone.
