

PIENAAR ENERGY (PTY) LTD

**Install photovoltaic bracket on
tile surface**

Overview

Hook-based mounting systems provide a specialized approach to securing solar panels on tile roofs, particularly those with curved surfaces. These systems are crafted to fit the unique contours of the tiles, allowing for secure attachment without compromising the roof's structural. Tile roofs offer excellent structural stability and longevity for solar installations, commonly lasting 50-100 years depending on material composition. This guide is for solar professionals.
