

PIENAAR ENERGY (PTY) LTD

Intelligent Outdoor Solar Storage Cabinet for Emergency Rescue

Overview

Engineered for high-capacity commercial and industrial applications, this all-in-one outdoor solution integrates lithium iron phosphate batteries, modular PCS, intelligent EMS/BMS, and fire/environmental control—all within a compact, front-access cabinet. Experience enhanced performance and smart thermal management with the Sunway 100kW/261kWh Liquid-Cooled Energy Storage System. One energy storage cabinet consists of inverter modules, battery modules, cloud EMS system, fire suppression system, and air-conditioning system, which can be installed both indoors and outdoors. All-in-one design. The design of Scandpoint outdoor integrated cabinet energy storage system has independent self-power supply system, temperature control system, fire detection system, fire protection system, emergency system, and other automatic control and security systems to meet various outdoor application. Simple Installation-By combining critical components into one system and integrating with C&I hybrid inverters, we remove the need for complex microgrid controllers, EMS controllers, Preassembled, plug-and-play design for fast installation and additional transformers—making installation as. Backup power: Supply power to the load when the power grid is out of power, or use as backup power in off-grid areas. Optimizing the use of renewable energy: Maximize.
