## Irish Off-Grid Battery Storage

---

### Charged Horizons

In 2021 energy experts Baringa estimated that to hit the 80 per cent renewable electricity targets in Ireland and Northern Ireland by 2030 we would need at least 1,700 MW of battery storage ...

### Spotlight on Ireland: Waiting for market maturity

We continue our Spotlight Series with a focus on Ireland, where battery storage to support high levels of wind generation was once flourishing, but the route to market is now newly challenging.

## Going Off-Grid in Ireland: Possibilities, Limitations & Costs

Ireland's climate is surprisingly suitable for off-grid generation. A mix of solar PV panels and small wind turbines, supported by battery storage, can provide year-round coverage.
