Is it okay to put photovoltaic panels in the yard

Overview

If you're wondering, "Can I put solar panels in my yard?"

" the answer is a resounding yes. Backyard solar panels, also known as ground-mounted solar systems, offer an efficient, flexible alternative to traditional rooftop installations. You need adequate space to install them, for one thing, and they are usually more expensive. Whether yours is too sloped, only has space on the north side, or isn't the right material, you might not be able to get rooftop solar.
