

PIENAAR ENERGY (PTY) LTD

Is it profitable to purchase photovoltaic panels

Overview

Here's the truth: For most homeowners, solar panels are absolutely worth it. The average solar shopper saves between \$37,000 and \$154,000 over 25 years—not including any potential incentives—transforming what feels like a significant upfront cost into substantial long-term. Solar panels are an upfront investment that can save homeowners a significant amount of money in energy costs over the life span of the panels. 9% to home values (nearly \$29,000 for median homes) while enabling solar homes to sell 20% faster than comparable non-solar properties. Financing Strategy Impact: Cash purchases deliver the highest ROI with \$25,000-\$50,000 lifetime. When you go solar, the power generated by your solar panels replaces the electricity you buy from the utility company, reducing or completely eliminating that bill.
