

PIENAAR ENERGY (PTY) LTD

Italy 20kW energy storage

Overview

Italy's installed storage fleet grew 23% by system count over the past year, but jumped 52% in capacity and 40% in power, according to new data highlighted by Italia Solare. Italy now stands as one of Europe's most important markets for battery storage systems. The conclusion comes from Italia. Energy storage systems are a strategic asset to guarantee security and flexibility to the national electricity grid and accelerate Italy's energy transition. Is there a real energy transition in Italy?

There can be no real energy transition in Italy without electricity storage systems. According to data sourced from ITALIA SOLARE and Terna, these systems collectively wielded a power capacity of 3.
