

PIENAAR ENERGY (PTY) LTD

Jamaica Mobile solar container battery Project

Overview

In a groundbreaking development for Jamaica's renewable energy landscape, a joint initiative between LASCO, The University of the West Indies (UWI), and the USAID has culminated in the completion of a pioneering solar and battery storage pilot project at the company's. In a groundbreaking development for Jamaica's renewable energy landscape, a joint initiative between LASCO, The University of the West Indies (UWI), and the USAID has culminated in the completion of a pioneering solar and battery storage pilot project at the company's. Kevin Mills (right) of Renewable Energy Design and Installation Services Ltd shows solar panels of the PV and PV+ system for the Central Village Multipurpose Centre, with N. Nick Perry (second right), ambassador of the United States to Jamaica; James Rawle (left), executive chairman of LASCO; and. Battery energy storage systems (BESS) are now emerging as a cornerstone technology to address these challenges--helping Jamaica stabilize its grid, unlock more renewable energy, and reduce electricity costs for both consumers and businesses. The country's electricity cost can reach as high as \$0. 32. White Marl, St. Catherine, Ap- Today marked a momentous occasion as stakeholders gathered at LASCO Distributors Ltd. to celebrate the successful completion of the UWI/LASCO Solar Pilot Project, which features the installation of a 500 kW PV+ system at the LASCO facility in Spanish. Partnership will create a new layer of protection with solar and battery storage to guard against telecommunication outages during natural disasters Kingston, Jamaica - Sept.
