

**PIENAAR ENERGY (PTY) LTD**

# **Kazakhstan New Energy Storage**

**100-430KWH**

**230|400V**

## Overview

---

Currently, Kazakhstan operates a 7.5-megawatt (MW) pilot energy storage system at a substation in Kokshetau. Kazakhstan's renewable energy capacity could reach 19 GW by 2030. To support this expansion, the country would require a. In the heart of Central Asia, Kazakhstan is emerging as a key player in the global energy transition, leveraging its vast landscapes and abundant resources to pioneer renewable energy storage solutions. As we approach 2030 targets for 15% clean energy in its electricity mix and carbon neutrality by. As part of the implementation of the instructions of the President of the Republic of Kazakhstan, Kassym-Jomart Tokayev, delivered on 28 January 2025 at an expanded meeting of the Government, comprehensive efforts are underway to ensure the systemic development of the electric power sector and. Kazakhstan is set to fully cover its domestic electricity needs by the end of the first quarter of 2027, with a stable surplus expected by 2029, Qazinform News Agency reports, citing the Government's press service. The agreement—formalized during an. Kazakhstan Investment Development Fund (KIDF), Qazaq Green Power (QGP), Total Energies (TE), Abu Dhabi Future Energy Company (Masdar), W Solar Investment, LLC KazMunayGas to be determined to be determined in Preparation approved for DPP Call for Projects 2025 Introduction and Background:.

## Kazakhstan New Energy Storage

### Kazakhstan - Wind and Energy Storage Systems

The development of these two RE plants is highly relevant to the implementation of Kazakhstan's Nationally Determined Contributions under the Paris Agreement, as it addresses two critical goals: ...
