Labor cost of photovoltaic bracket board

Overview

On average, labor costs for installing pitched roof PV brackets can range from \$30 - \$80 per hour per installer. A typical installation job for a residential system may take 1 - 2 days with a team of 2 - 3 installers, resulting in labor costs of \$600 - \$2,400. Labor costs are determined by various factors including geographical location, the complexity of the installation, and skill level of the workforce, 2. This work has grown to include cost models for solar-plus-storage systems. Roof Type and Condition The type of pitched roof and its condition are crucial. Understanding the cost standards of photovoltaic bracket boards is critical for solar project developers, installers, and procurement managers.
