# **Lisbon export tariffs on solar modules**

## Overview

---

In the HTS tariff system, the duty for solar cells assembled into modules or made up into panels (code 8541. Are solar panels subject to a tariff?

Imports above quota limits are subject to a 9. In 2024, the United Kingdom was the largest destination for extra-EU exports of wind turbines and second largest for solar panels and liquid biofuels. Generally, these taxes range from 0% to 25%, depending on trade agreements and local policies, 2. The year 2025 marks a critical inflection point for the global solar industry as Europe's Carbon Border Adjustment Mechanism (CBAM) reaches full implementation. With 85% of PV manufacturing currently concentrated in Asia and China supplying over 80% of global polysilicon, these tariffs are poised. The European Solar Manufacturing Council (ESMC) is the organisation representing the interests of the European PV manufacturing industry. ESMC aims at promoting and supporting the PV manufacturing industry and its value chains at the European level, by creating a supportive political environment. The most basic are: If you want to import photovoltaic panels, you should have at least basic parameters of the goods specified.
