

PIENAAR ENERGY (PTY) LTD

Low-pressure Italian photovoltaic folding container for mountainous areas

Overview

The Solarfold photovoltaic container can be used anywhere and is characterized by its flexible and lightweight substructure. The semi-automatic electric drive brings the mobile photovoltaic system over a length of almost 130 meters quickly and without effort into operation in a. With Solarfold, you produce energy where it is needed and where it pays off. This system is realized through the unique combination of innovative and advanced container. LZY offers large, compact, transportable, and rapidly deployable solar storage containers for reliable energy anywhere. Rapid deployment, high efficiency, scalable energy storage, remote monitoring support.
