

PIENAAR ENERGY (PTY) LTD

**Lte integrated base station and
outdoor**

Overview

Integrated Structure Combines BBU and RRU into one compact outdoor unit, simplifying installation and reducing maintenance costs. Strong Anti-interference Performance Industrial-grade circuit design ensures reliable performance in complex environments and stable long-term. Outdoor LTE base station with dual-carrier support and built-in high-gain omni antennas for private network deployments in Bands 40 and 48. This product is designated an Industrial-class booster by the FCC and may only be sold as part of a custom-designed solution. CableFree Emerald 4G. The sCELL-H2000 from BTI Wireless are advanced outdoor LTE compact eNodeB products with two output power options: 2x20W and 2x40W, which can operate in either TDD or FDD mode. This eNodeB can operate in 5, 10, 15 or 20 MHz. Advanced 4G and 5G LTE SDR (software-defined radio) Small Cell Base Station - Outdoor Version - is suitable for a wide variety of applications. Covering all common 4G and 5G LTE bands, the base stations feature software-defined radio, allowing great flexibility of operation and future upgrade. Caltta LTE Integrated Base Station (BS8922) adopts a design that integrates control and clock modules, baseband processing module, RF module, and power amplifier unit, and features high integration, large capacity, low power consumption, etc. IP65 protection meets different indoor and outdoor.
