

PIENAAR ENERGY (PTY) LTD

Luxembourg New Energy Charging Station Management

Overview

Luxembourg's 748 public EV charging points will transition to new management without service interruptions after the charge@lux consortium secured a seven-year operating concession, officials confirmed. Luxembourg's Ministers of Housing and Economy responded to questions about the legal regulation of the installation of charging stations for electric vehicles in apartment blocks. More than 760 public charging stations, including 86 ultra-fast SuperChargy stations, are available to users of electric and plug-in hybrid vehicles throughout the territory of the Grand Duchy of Luxembourg, as well as at service areas along. The network of public charging points for electric cars and plug-in hybrids was launched in the Grand Duchy in 2017, it was given the name Chargy. The subsidies cover up to 50 per cent of the CPOs' investment. Luxembourg is to hand out around 3.
