

PIENAAR ENERGY (PTY) LTD

Main parameters of Trina photovoltaic panels

Overview

Trina's top-tier TOPCon cells offer impressive efficiencies up to 23. Low-voltage design enables higher string power, delivering increased energy yield. 4% annual degradation thereafter. Lowering electricity bills with efficient Trina pv panel options. By understanding your priorities, you can confidently select a solution that meets your. Trina Solar employs sophisticated solar technologies—PERC, bifacial, and half-cut, to name a few—while maintaining competitive prices. Market Leadership with Scale: Trina Solar has established itself as a top-3 global solar manufacturer with over 205GW of cumulative shipments and operations in 100+ countries, demonstrating the scale and reliability that makes it a Tier 1 bankable choice for large-scale solar projects in 2025. Trina Solar has been manufacturing photovoltaic products since 1997, earning its position as one of the world's leading solar panel manufacturers. The company consistently ranks among the top solar module suppliers globally, with shipments exceeding 100 GW cumulative capacity.
