

PIENAAR ENERGY (PTY) LTD

Malawi dedicated energy storage battery company

Overview

Electricity Supply Corporation of Malawi (ESCOM) has begun constructing a 20 megawatts (MW) battery energy storage system (BESS), which is expected to be completed by February 2026 to enhance electricity supply and reduce load shedding. Located adjacent to ESCOM's Nkhoma substation in Lilongwe District, our 60MW/240MWh BESS is scheduled for completion in the second half of 2027. Our BESS project will provide peak power, support renewable energy integration, and enhance overall grid stability. This is GEAPP's first. Investment in the energy sector is expected to boost economic growth in Malawi, with the government committing to support the \$16 million BESS Project to meet its February 2026 completion deadline. Solvis manufactures high-quality photovoltaic.
