

**PIENAAR ENERGY (PTY) LTD**

# **Mangya 1 wind power project connected to the grid**

## Overview

---

Recently, CTG's 500 MW wind power project in Mangya city, Qinghai province, was successfully connected to the grid and has started generating electricity. Surrounded by three vast uninhabited regions, the turbines transform plateau winds into a steady flow of clean energy. Located in Lenghu Town, Mangya City, Haixi Prefecture, Qinghai Province, the project sits at an average altitude of 2,850 meters. Entering the stage of debugging and grid-connected power generation, the charge for the project to be put into production has been fully sounded. This project is one of the. Other names: Qinghai Mangya Lenghu Unsubsidized Wind/Solar Integrated project Qinghai Mangya Lenghu Unsubsidized wind farm is an operating wind farm in Lenghu, Mangnai City, Haixi AP, Qinghai, China. The map below shows the approximate location of the wind farm: Loading map. The project. Global Wind Power Tracker, a Global Energy Monitor project.

## Mangya 1 wind power project connected to the grid

### Power plant profile: Qinghai Haixi Mongol Mangya Lenghu CGN Wind ...

Qinghai Haixi Mongol Mangya Lenghu CGN Wind Farm is a 50MW onshore wind power project. It is located in Qinghai, China. According to GlobalData, who tracks and profiles over 170,000 power ...
