

PIENAAR ENERGY (PTY) LTD

Mauritania s new solar power system

Overview

In a significant step towards energy transition, Mauritania signed a public-private partnership agreement worth \$300 million on Friday, September 12, in Nouakchott to construct a hybrid power plant that combines solar and wind energy—the first of its kind in the country. A 5 million financing package from the African Development Bank and the Green Climate Fund will support two major projects that aim to develop solar power generation, transnational electricity interconnection and rural electrification in the country. The project includes a 160 MW photovoltaic solar plant in Nouakchott, a. NOUAKCHOTT / DAKAR - Decem- Mauritania has moved decisively to position itself as a green hydrogen and renewable energy powerhouse, with fresh announcements this week underscoring an ambitious goal to reach 12.5 million tonnes of green hydrogen output by 2035, backed by new. The Mauritanian government has signed a landmark agreement to build the country's first hybrid renewable power plant, combining 160 MW of solar, 60 MW of wind and 370 MWh of battery energy storage system.
