

**PIENAAR ENERGY (PTY) LTD**

# **Mexico solid-state batteries**

## Overview

---

The existing manufacturing ecosystem for solid-state batteries is underdeveloped in Mexico, requiring substantial investments in specialized facilities, cleanroom environments, and advanced manufacturing equipment. The Mexico polymer solid state lithium metal battery market is projected to experience a robust CAGR over the forecast period, driven by accelerating technological innovation and increasing industrial adoption. Historically, the market has demonstrated steady growth, supported by global shifts. The company specializes in the manufacture of lithium batteries, particularly for applications like electric forklifts, highlighting its expertise in advanced battery technologies. A compound annual growth rate of 57.7% is expected of Mexico solid state battery market from 2025 to 2030. One of the primary challenges is the regulatory framework, which often involves complex certification processes, safety.
