

PIENAAR ENERGY (PTY) LTD

Microgrid Project Final Report

Overview

Microgrid Analysis and Case Studies Report is the final report for the Microgrid Support project (Contract Number 300-15-009, Work Authorization Number NAV-15-001) conducted by Navigant Consulting Inc. The California Energy Commission's (CEC) Energy Research and Development Division supports energy research and development programs to spur innovation in energy efficiency, renewable energy and advanced clean generation, energy-related environmental protection, energy transmission, and distribution. The California Energy Commission's Energy Research and Development Division supports energy research and development programs to spur innovation in energy efficiency, renewable energy and advanced clean generation, energy-related environmental protection, energy transmission and distribution and. To assess the value of wind energy to distribution, islanded, hybrid, and microgrid systems, the U. Department of Energy, its national laboratories, and industry collaborated on the Microgrids, Infrastructure Resilience, and Advanced Controls Launchpad (MIRACL) project. The 4-year MIRACL. Microgrids 3. Renewable Energy Energy Resiliency 4. WPI routinely publishes these reports on its website without editorial or peer review. For more. Demand for electricity is rapidly increasing thereby applying pressure to expand generation and distribution capacity worldwide. Microgrids can offer benefits to an electric system.

Microgrid Project Final Report

REopt/Microgrid Analysis: Cooperative Research and ...

This report describes the technical assessment of a microgrid for three research buildings at the University of Colorado's East Research Campus in Boulder, Colorado, and provides several ...
