

PIENAAR ENERGY (PTY) LTD

Microgrid System Integrator

Overview

A modular, future-ready control platform uniting energy sources for reliable, sustainable power in remote and isolated communities More. It can connect and disconnect from the grid to. SEL Engineering Services (ES) provides integration and management for all power generation sources and loads., utilities, developers, aggregators, and campuses/installations).

Microgrid System Integrator

Microgrids and Power Management

Our power system engineers streamline the integration of DERs into your system by selecting and prioritizing the most efficient mix of renewable and nonrenewable energy resources to support local ...
