Microgrid controller manufacturers

Microgrid controller manufacturers

Microgrid Systems: Design, Control Functions, Modeling, and Field

Microgrid control systems (MGCSs) are used to address these fundamental problems. The primary role of an MGCS is to improve grid resiliency. Because achieving optimal energy efficiency is a ...

PowerMAX for Mobile Microgrids

The first microgrid control system that can parallel load-share generators of different sizes, even different manufacturers. Power for the entire system can be monitored and controlled from a single computer interface.

SEL Microgrid Systems

SEL's microgrid control systems are reliable and secure solutions for maintaining uninterrupted energy delivery. They control and protect many types of distributed energy resources.

[Get Price](#)

SEL powerMAX for Mobile Microgrids

Ease of Deployment SEL microgrid systems are preconfigured and pretested at our factory. Personnel without engineering experience can build a microgrid. No field configuration is required. Small, light, and modular ...
