

PIENAAR ENERGY (PTY) LTD

Microgrid economics romania

Overview

The Romania Microgrid Market is witnessing significant growth driven by factors such as increasing demand for reliable and efficient power supply, rising focus on renewable energy integration, and government initiatives promoting energy security and sustainability. Microgrids are gaining traction. Eximprod is a Romanian energy sector specialist that provides innovative solutions, including SmartGrid technologies, which are relevant for the development and management of microgrids. This paper presents a day-ahead optimal energy management strategy for economic operation of industrial microgrids with high-penetration renewables under both isolated and grid-connected operation modes. In this space, Societatea de Inginerie Sisteme (SIS S. Microgrid modelling supports optimal design, scenario planning, and operational strategy through both model-based and data-driven approaches.
