

PIENAAR ENERGY (PTY) LTD

**Mobile energy storage instead
of generators**

Overview

Mobile BESS products provide mobile, temporary electricity wherever and whenever it's needed. By storing low-cost off-peak grid power and dispatching it onsite as needed, mobile storage provides operators with emissions and noise-free electricity - often for days or weeks without. RICHMOND, Va. 18, 2025) — Dominion Energy is holding a ribbon-cutting today to deploy a first-of-its-kind mobile battery energy storage system that serves as a clean alternative to diesel generators. The Green Grid 90 kWh mobile battery energy storage system (MBESS) generates energy from. There are often scenarios when businesses cannot access grid power, such as at construction sites, oil and gas operations, or during emergency-relief situations. In these instances, generators are an optimal solution. These systems use advanced battery technologies, such as: Lithium iron phosphate: A type of lithium.

Mobile energy storage instead of generators

Clean power unplugged: the rise of mobile energy storage

Fortunately, an innovative, cleaner solution is gaining traction to replace dirty generators: mobile battery energy storage systems (mobile BESS). Mobile BESS products provide mobile, ...
