

PIENAAR ENERGY (PTY) LTD

Montenegro about energy storage systems

Overview

The utility is procuring two grid-scale battery storage systems to the tune of EUR 48 million (\$55. Each. These systems promise to revolutionize the stability and efficiency of the national grid, marking a pivotal moment in the country's journey toward a cleaner energy future. The energy sector in Montenegro currently stands at a crossroads, with a mix of traditional hydropower and thermal power plants. EPCG, a utility and distribution network operator (DNO) in the Southeast European country of Montenegro, is looking to add 300MW of BESS to its grid. EPCG, the Electric Power Company of Montenegro, will launch a public tender for the procurement of 300MWh of battery energy storage system (BESS). Montenegro has taken a decisive step toward modernizing its power system with a €48 million investment in large-scale battery energy storage systems (BESS). Main Content: Elektroprivreda Crne Gore (EPCG), the largest state-owned.
