

PIENAAR ENERGY (PTY) LTD

Morocco Energy Storage Power Generation Project

Overview

In November 2024, Saudi Arabia's ACWA Power and China's Gotion High-tech reached a cooperation agreement to build a 500MW wind farm in Morocco, equipped with a 2GWh battery energy storage facility, with an investment of approximately \$800 million. According to Official Account @Storage Discover, according to a report on the website of the Ministry of Commerce of China, to enhance its energy storage capacity, the electricity branch of Morocco's National Office of Electricity and Drinking Water (ONEE) has recently issued a letter of intent for. To address this, Morocco is resolutely focusing on lithium iron phosphate (LFP) batteries, a reliable, durable technology suited to local constraints. This choice is part of a national strategy for equipping, testing, and industrializing energy storage. Globally, the battery market is experiencing. The Office National de l'Électricité et de l'Eau potable launches a large-scale storage programme to absorb production fluctuations from renewable sources. 8 percent), natural gas (10 percent), wind (15. The projects are spearheaded by the Moroccan Agency for Sustainable Energy (MASEN) and Morocco's national electricity company ONEE.
