

PIENAAR ENERGY (PTY) LTD

Morocco Independent Energy Storage Project

Overview

On , the Masen Agency announced a new pilot project called the “Morocco Energy Storage Testbed Project,” validated by the World Bank. Deployed at the iconic Noor Ouarzazate site, this program aims to experiment with different technological storage solutions to improve grid flexibility. This choice is part of a national strategy for equipping, testing, and industrializing energy storage. The Office National de l'Électricité et de l'Eau potable (ONEE) has initiated a battery energy storage project with a total capacity of 1600. Morocco is accelerating its energy transition by issuing a global call for expressions of interest to build two large-scale battery storage facilities. The projects are spearheaded by the Moroccan Agency for Sustainable Energy (MASEN) and Morocco's national electricity company ONEE. This article explores how the country's strategic investments in battery storage, pumped hydro, and hybrid systems are reshaping its energy landscape while. Morocco's National Office for Electricity and Drinking Water (Onee) has yet to appoint a transaction adviser for its planned battery energy storage projects.
